

TECHNICAL ACADEMY

Drylining Systems (Ceilings) for Installers & Supervisors

Course Description

A one-day course covering both theory and practical demonstrations.

This course, which focuses on vertical metal framed systems, offers drylining contractors and supervisors with an in-depth look at the required components, performance characteristics and detailing of a full range of Gyproc systems.

To ensure that attendees know how the relevant systems can be built in full compliance with the manufacturer's recommendations to attain their relevant performance substantiation, the common

detailing areas are explained in a practical manner with live demonstrations. Some of the key site detailing areas discussed include junctions, deflection heads, penetrations, socket boxes and control joints.

Attendance Requirements

Attendees are expected to have a basic knowledge of dry lining systems and construction principles.

Location: Dublin & Kingscourt Academy

Time: 10:00–16:00
