

TECHNICAL ACADEMY

ROI Building Regs. & Compliance

A focus on fire, sound & energy compliance

Course Description

A one-day course covering both theory and practical demonstrations.

The course takes a fabric first approach for residential buildings outlining how to achieve compliance with the Fire, Sound and Conservation of Fuel & Power elements of the relevant sections of the current ROI Building Regulations.

Topics Covered

- General Overview of Regulations
- Fire (Technical Guidance Document B)
- Sound (Technical Guidance Document E)
- Conservation of Fuel & Energy – Dwelling (Technical Guidance Document L)

Attendance Requirements

Attendees are expected to have a basic knowledge of construction principles.

Location: Dublin Academy Only

Time: 10:00–16:00

Course Objectives

- Develop the attendees knowledge and awareness of the content of three of the more prominent sections of the Irish building regulations
- Understand what compliance in accordance with the Building Control Act means to the respective members of a project team
- Understand how to use and interpret the associated Technical Guidance Documents that accompany the building regulations
- Understand how the implications of each regulation reflects the choices of materials and systems used within the construction of a domestic dwelling
- Provide attendees with an understanding of how and where Saint-Gobain products can contribute towards the demonstration of compliance with the regulations
